MAY GOOD HEALTH, PEACE AND SUCCESS ARRIVE AS WE WELCOME THE NEW YEAR 5785

5784 was a challenging year
For family members both far and near.
But let's look back for a minute or two,
On our travels and what we all managed to do.

Guiding young journalists as they get wiser,
Esther's a high school publication advisor.
Her podcast and writing have both won her praise
And continue to fill both her nights and her days.

Jack and Penina marked a birthday milestone
And traveled with their kids and on their own.
Hugging their family in many a location,
They came bearing love from the Israeli nation.

Gil studied Torah in northern Israel,
Traveling to Greece, Corfu, and the U.S. as well.
Dov surfed at camp in California's Pacific
And spent time with Esther, which was pretty terrific.

Simmy helped teams with creative ideation
Through his new company. Its goal? Innovation.
Lani did Paris with Julia alone
And together, the fam went to Miami Beach and Rome.

Julia saw New Orleans and prepped SATs.
Ella served volleys at Schechter with ease.
Susie likes dogs now, which is totally cool
And all three loved camp; now they're back at school.

Al and Aviva went to Florida, soaking up sun,
Brunches and dinners, with friends full of fun.
Al gave seven lectures on TV and screen,
Their vacation was lively, relaxed, and serene.

This year's an election – we'll be making our choices,
Keeping in mind loved ones' differing voices.
We hope that the new year ahead will be bright
And that our every step will bring love, peace, and light.
